Your trusted sourcing partner of choice

Synergies Worldwide is an established global supply chain manager and a sustainable virtual manufacturing group with razor-sharp focus on products and prices. Our evolution over the last 32 years characterize our passion in delivering true benefits to our global customers in the fashion industry.

Synergies Worldwide provides sustainable sourcing for the fashion and hospitality industry. Our solid relationships with manufacturers and quality suppliers around the globe ensures that we maintain high production standards through our team of on-site inspection agents and international trade specialists.

Our highly competitive product prices and professional service fees position us to operate on short lead times, low margins and flexible volume together with our partner suppliers in key low-cost and duty-free countries. Synergies Worldwide has a strong ability to work with any of the world's fashion apparel companies or consumer goods discounter.

Since our founding in 1987, Synergies Worldwide has grown to a team of more

than 500 strategic sourcing professionals managing more than \$300 million dollars in international trade for over 75 of the world's most identifiable and discernable fashion and apparel brands.

Mr. Munir Mashooqullah, an industry advocate, leader and a sought-after speaker on supply chain, is the founder and Chairman of Synergies Worldwide. Named as one of the “Outstanding 50 Asian Americans in Business” by the Asian American Business Development Center in 2010, he is actively involved with New York City’s Asia Society and several charitable organizations in South Asia for his philanthropic works.

PHILOSOPHY

• SYNERGIES WORLDWIDE •

DESIGN • PRICE • TRUST

We strive to be ahead of our competitors in product and price by leveraging our Design Studio and highly skilled merchandisers in product costing. Our collection proposals enable our customers to buy quickly and frequently resulting to shorter lead times. We guarantee our customers' trust.

We provide sustainable products and sourcing solutions for apparels, fashion accessories, foot wears, home textiles, decorative accessories and other

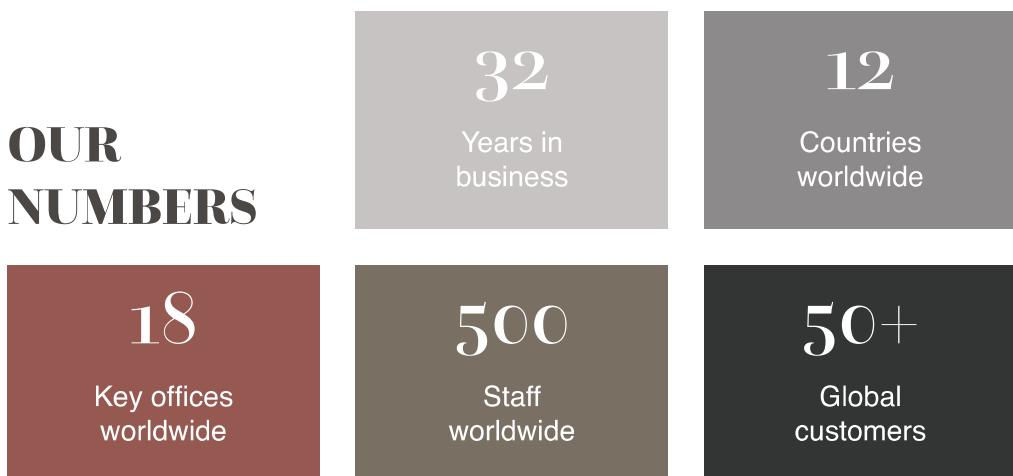

goods for companies in the fashion and hospitality industry.

We take our time to understand the customer, their brand and business objectives before offering focused collection proposals and our manufacturing facilities.

We continue to build our position as market leaders in sustainable supply chain management with our firm commitment to deliver tangible benefits to our customers.

OUR NUMBERS

WHY CHOOSE US

These key factors enable us to work with fashion companies around the world:

- 1** Highly competitive product prices and service fees.
- 2** Dynamic business models positioned to operate on short lead times, low margins and flexible volume.
- 3** Existing sourcing and production presence in key low-cost and duty-free countries of the world.

THE FOUNDATION

RESEARCH

Synergies Worldwide believes that Research and Development is the foundation of any sought-after collection. Our Research and Development teams are in different locations in the world to source and develop the latest fabrics, finishes and washes ahead of the market. The team works closely with our extensive network of mills to provide customers with quality products and their desired price.

DEVELOPMENT

Our Technical Support Teams ensure that samples are created and developed according to customers' required specification and compliant to any existing legal guidelines, ensuring high quality, high durability and sustainable products.

DESIGN STUDIO

Our team of designers travel around the world to look for design inspirations and novel ideas that breathe new designs to our customers' specification. We add value to our customers' in-house design teams and enhance their product while keeping true to their brand identity.

The strength of our Design Studio is anchored on our: expert technical team, high technology design facilities, extensive sourcing partners, deep knowledge of the industry and understanding of our customers' DNA and expectations. The goal is always to have focus on design wins that are meeting the customers' expectations in quality and pricing.

SOURCING

Our presence in Asia enables us to manage our manufacturing operations effectively. We can manufacture in any quantities in premium quality that is best fit to our customer's quality and price specification.

PRODUCTION CONTROL

We have experienced technical experts on-site who monitor and control the quality at our factories. They are highly competent to discuss with the customers any technical developments and opportunities for gaining optimal efficiency. We guarantee that all required tests of materials are done on schedule utilizing reputable test institutes.

QUALITY

With our experienced and skilled on-site Quality Control teams, we can provide our partners with the transparency and controls needed to measure the quality of each order. No product is left unturned to ensure we deliver only the best quality at price point to our customers.

Operations Support

OPERATIONS EXCELLENCE

Operational excellence adds values and creates sustainable competitive advantage to the business. The global nature of the textile industry requires professional operations support from Finance, Logistics, Compliance, Human Resource and Information Technology.

In Synergies Worldwide, these teams collaborate with their counterparts to ensure that operations are carried out smoothly and with efficiency across the supply chain.
